Credit for military service is different in the Municipal Retirement Systems. Each municipality with a separate retirement system has the option to enact changes in the military service provision that allows credit to members at no cost.

The following information describes eligible active duty military service available at no cost to members of the PERS and the MHSPRS in addition to qualified military service based on interrupted employment under the Uniformed Services Employment and Re-employment Rights Act of 1994 (USERRA). The provisions for interrupted employment under USERRA apply to members of all retirement systems administered by PERS, including the Mississippi Highway Safety Patrol Retirement System, the Municipal Retirement Systems, and the Optional Retirement Plan.

In order to have military service considered for service credit, the member must enter or return to covered state service **after** discharge from active duty in the Armed Forces (or from service in the Commissioned Corps of the United States Public Health Service prior to 1972). Should the member enter active duty after retirement and later return to covered state service, no service credit for active duty military service is available for any period in which the member was drawing a retirement allowance.

The Uniform Services Employment and Reemployment Rights Act of 1994 (USERRA) requires employers to reemploy and preserve job security, pension and welfare benefits for "qualified" employees whose employment was interrupted by military service. If qualified interrupted military service does not meet the qualifications for Active Duty military service available to the member at no cost as noted above, a member may be awarded credit for time spent in the military that interrupted public service provided that the appropriate employee and employer contributions (and interest, if applicable) are paid.

a. Service in the "Uniformed Services" means the performance of duty on a voluntary or involuntary basis in a Uniformed Service under competent authority and includes Active Duty, Active Duty for training, Initial Active Duty for training, Inactive duty training, full-time National Guard duty, and a period during which a person is absent from a position of employment for the purpose of an examination to determine the fitness of the person to perform any such duty.

Deleted: 1.

b. Uniformed Service means any of the following:

- 4) any other category of persons designated by the President in time of war or emergency.

2. Limitations

The member must have worked for an employer covered by one of the retirement systems administered by PERS, have left that employer for a **military leave of absence**, and returned to work for the same public employer within three months of discharge or release from the "Uniformed Services."

- v. Reported back to the same public employer within 90 days after the member's discharge, unless he/she was hospitalized for or convalescing from a service-connected injury or illness in which case the deadline for reporting to work may be extended for up to two years; and
- vi. Met any other requirements provided by applicable federal law.

b. Military Service Performed after withdrawal from state service

No military service is available for service credit under this provision after the member leaves covered public service or retires. In order to begin drawing a retirement allowance the individual must have withdrawn or terminated from service. To have military service considered for service credit, the member must have left state service for the purpose of entering the military and later returned to covered state service after discharge from qualifying service under USERRA. Should the member enter military service after retirement or termination of employment and later return to covered state service, no service credit for such military service is available under this section.

already been made on compensation paid during such periods. Further, a member may not receive additional service credit for periods of time for which he/she has already received service credit, i.e., where the individual is on paid personal leave. c. The member must make payment within a period of time beginning with the date of return to membership service and not exceeding three (3) times the member’s qualified military service, but in no case shall the member have in excess of five (5) years from the date of his return to make such payment.

d. Employer contributions required by the employer with whom service was interrupted which are due pursuant to applicable state and federal law shall be billed to the employer for payment after the member has paid the employee contributions.
